

Pratap Patra

Aspiring Full Stack Developer

B.Tech (CSE), Brainware University, Barasat

📍 India | 💻 Open to Internships & Entry-Level Roles

Professional Summary

Detail-oriented Computer Science undergraduate with a strong foundation in programming, data structures, and web technologies. Experienced in C and Python, with growing expertise in full-stack development concepts. Highly motivated self-learner focused on building real-world projects, writing clean and efficient code, and preparing for software engineering roles in high-growth tech domains.

Education

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Brainware University, Barasat

2024 – 2028

- Current SGPA: **8.2**
 - Relevant Coursework: Data Structures & Algorithms, DBMS, Computer Organization & Architecture, Operating Systems, OOP
-

Technical Skills

Programming Languages

- C (Intermediate)
- Python (Beginner-Intermediate)

Data Structures & Algorithms

- Arrays, Linked Lists (Singly & Doubly)
- Stacks & Queues
- Trees & Graphs
- Searching & Sorting Techniques
- Problem-solving & algorithmic thinking

Web & Full Stack Fundamentals

- HTML5, CSS3 (Layouts, Hover effects, Animations)
- Basic JavaScript (DOM understanding)
- Frontend structure & responsive design concepts

Databases & Backend Basics

- DBMS concepts: Normalization, ACID, Indexing, Joins
- Basic SQL queries
- Understanding of backend workflow

Tools & Concepts

- Git (basic)
 - Object-Oriented Programming (OOP)
 - System design basics
 - Debugging & logical analysis
-

Academic & Personal Projects

Daily Diary Android App (Concept Project)

- Designed an Android app idea with daily pages for the entire year
- Features include text saving, date-wise entries, and simple UI

Personal Learning Tracker Web App (Planned)

- Tracks progress in long technical videos using timestamps and labels
- Focused on productivity and structured learning

Python Practice Programs

- Implemented programs based on string handling, lists, dictionaries, functions, exceptions, and OOP
-

Achievements & Strengths

- Strong consistency in self-learning and exam preparation
 - Good academic performance with balanced theory & practical knowledge
 - Clear long-term goal-oriented mindset
 - Ability to explain technical concepts clearly
-

Career Objective

To become a skilled Full Stack Developer by building scalable projects, mastering backend and frontend technologies, and securing a high-impact role in the software industry before graduation.

Interests

- Software Development
- Competitive Programming
- System Design & Architectures
- Learning emerging technologies
